PROFILE

Financial Crime and Risk Analyst with 3 years of experience in AML Transaction Monitoring, Risk Assessment, Quality Assurance, and Compliance Operations within a global banking environment. Skilled in analyzing complex business processes, identifying risks and control gaps, conducting investigations, and collaborating with international stakeholders to support regulatory compliance and operational excellence. Experienced in driving process improvements and ensuring high-quality case reviews across Correspondent and Non-Correspondent Banking portfolios

WORK EXPERIENCE

STANDARD CHARTERED GBS

2023 - PRESENT

SENIOR ANALYST- FINANCIAL CRIME SURVEILLANCE OPERATIONS (FCSO)

- Working as a Senior Analyst in Financial Crime Surveillance at Standard Chartered Bank with experience in AML Transaction Monitoring, KYC/CDD reviews, and financial crime risk investigations. Responsible for reviewing customer transactions, identifying suspicious activities, analyzing transactional behavior, and ensuring compliance with internal policies and global AML regulatory requirements.
- Experienced in handling both Correspondent Banking and Non-Correspondent Banking reviews, working closely with the US team for Correspondent Banking and the HK team for Non-Correspondent Banking processes.
- Performed detailed reviews of customer profiles, transaction activities, source of funds, and business relationships to identify potential AML, sanctions, or financial crime risks. Conducted investigations on alerts generated through transaction monitoring systems, identified red flags such as unusual transaction patterns, high-risk jurisdictions, structuring activities, third-party transfers, and transactions inconsistent with customer profiles, and escalated suspicious cases whenever required.
- Hands-on experience in KYC and Due Diligence processes, including reviewing corporate and individual customer documentation, business activities, ownership structures, source of wealth/source of funds information, and handling RFIs (Request for Information) to obtain additional customer details or supporting documents for compliance reviews.
- Acted as a buddy/mentor for new joiners, providing process guidance and improving onboarding efficiency
- Additionally gained strong exposure in Quality Assurance (QA), where responsibilities included reviewing completed cases for accuracy, ensuring adherence to compliance standards and internal procedures, identifying gaps or errors in investigations, and supporting process quality improvements. QA experience provided deeper understanding

EDUCATION

- Bachelor of Computer Application(BCA) Stella Maris College, 2023
- HSC , Montfort Matriculation Higher Secondary School, 2020
- SSLC , Montfort Matriculation Higher Secondary school, 2018

PROJECTS

AI-Powered AML Transaction Monitoring Simulator ([LINK](#)) 2026

Technologies: HTML, CSS, JavaScript, JSON, Git, GitHub, AI/LLM Integration (Concept)

- Developed an AI-powered AML Transaction Monitoring Simulator that replicates real-world financial crime investigation workflows.
- Built role-based Analyst and Admin dashboards with AI-assisted investigations, case management, document review, and performance tracking.
- Designed an enterprise-inspired interface to enhance AML training, compliance operations, and investigative decision-making.
